BATTLEFLEET GOTHIC TOURNAMENT

Last Update: 02.17.2011

IA:10 Ship Clarifications Added

AdeptiCon reserves the right to modify, update, clarify, or change event rules in the interest of making AdeptiCon the best event possible. No fundamental rules changes will be made after 2/1/2011.

EVENT DESCRIPTION

In the grim darkness of the far future, war rages across the stars. Fleets of starships will fight for supremacy in the void of space. The AdeptiCon 2011 Battlefleet Gothic Championships will test your skills as a naval tactician, your abilities as a painter, your sportsmanship, and your knowledge of the Battlefleet Gothic game and universe. Bring your best effort, because only one player will be crowned Best Overall in the BFG event of the year.

BASIC RULES

- The Battlefleet Gothic (BFG) rules from the [Games Workshop website](#) will be used.
- Allowable Fleets/Ships:
 - All fleets from the [Games Workshop website](#) will be used (including Craftworld Eldar and the Adeptus Mechanicus fleets).
 - Imperial Armour fleet lists are **NOT** allowed. Individual ships (except the High Conveyor) from Imperial Armour 10 are allowed and take up a slot in any respective fleet for the appropriate race they are listed for with the following clarifications:
 - **The Night Hag:** Chaos Fleet.
 - **Nicor:** Space Marine Fleet/Battlefleet Armageddon: As it's a Grand Cruiser it will require 2 other cruisers to field.
 - **Vanguard:** Space Marine Fleet/Battlefleet Armageddon: Freely Available as it's just a modified Strike Cruiser.
 - **Raptorous Rex:** Space Marine Fleet/Battlefleet Armageddon: Counts as a Battle Barge for the fleet lists. As the rules are written in IA 10, this ship may not turn as it a Battleship class ship and is given a max speed of 10cm and cannot use Burn Retros order. Battleships have to move 15cm in order to turn. The fluff describes the ship as being as large as a space hulk. Because of this, if possible to make a house rule at this point, I was going to rule that it functions like a Space Hulk with respect to movement (IE moves 10cm forward a turn and can make a 45 degree turn every 2 movement phases).
 - The following lists from the Battlefleet Gothic Repository will be allowed. Those lists currently marked as draft should be finalized by the middle of February, and will appear on the Games Workshop website shortly thereafter.
 - [Fabric of the Imperium \(Rogue Traders, Wolkpacks and the Merchant Fleets of Mankind\)](#)
 - [Adeptus Astartes \(Battlefleets of the Space marines, Guardians of Mankind\)](#)
 - [Tau Kor'Or'Vesh – The Armada \(Evolution of the Tau Battlefleet\)](#)
 - [Battlefleet Bakka \(The Saviors of Maccrage During the First Tyranic War\)](#)
 - [Holy Orders of the Emperor's Inquisition \(Guardians of Purity Admist the Imperium of Man\)](#)
 - ['Ere We Go! 'Ere We Go! 'Ere We Go! \(Ork Clanz in Battlefleet Gothic\)](#)
 - [The Powers of Chaos \(Chaos Fleets in Battlefleet Gothic\)](#)
- All players are expected to abide by the [AdeptiCon Conduct Policy](#).
- The models used in your fleet must comply with the [AdeptiCon Model Policy](#) (all models **MUST** be WYSIWYG and painted to a 3-color minimum standard).
- The [Battlefleet Gothic 2010 FAQ](#) will be in effect.
- These rules are considered "current" and will override all previous versions and printings (e.g. Warp Storm, BFG Magazine, etc.)
- Experimental rules may **NOT** be used, with the exception of rules specifically mentioned in the FAQ (e.g. Ordnance and Nova Cannons).
- Forge World models and rules **MAY** be used. A Tau player may use "Counts As" rules to count their Forge World models as the Specialist Games equivalent for the fleet list from Armada or the Tau Kor'Or'Vesh fleet list.
- Although the use of miniatures to represent ordnance is allowed, counters may also be used to represent attack craft and torpedoes but they must be of the correct size (20mmx20mm for attack craft token). Torpedoes are now represented with a Strength 3 marker with one or more D6 indicating the actual salvo strength. For specific dimensions, torpedo markers should be no more than 2.5cm wide. If counters are used, they **MUST** be from the official Specialist Games/Games Workshop website or be from the BFG box set.
- You must bring all materials needed to play including dice, measuring devices, templates, models, calculators, and any rules that you will be using.
- Players must bring sufficient blast marker for their fleets to use! Blast markers are available on the Games Workshop Website.
- When time is called for a round, all player's must drop the dice and stop playing - no exceptions. Because of this, please be aware of the time left in the round and do not start a turn you cannot finish.
- If illegal units are found in a player's list, at a minimum, the models in violation will be removed from all subsequent play.
- All rulings by the tournament judges will be final.
