# SPONSOR SPOTLIGHT

## Ziterdes

ZITERDES (Ziegler TERRain DESign) is the premier European source for terrain and landscapes for miniature wargames. An independent subsidiary of NOCH, ZITERDES infuses miniature wargaming terrain with NOCH's 90+ years of experience in providing terrain for model railroads and dioramas.

Recently we communicated with Jürgen Hauser at Ziterdes' headquarters in Germany.

### Tell us about ZITERDES' product line:

We use the same methods that we use to produce walls and portals for model railroads. ZITERDES' products are already pre-painted and partially grassed with a special green flock. You can take them out of the packaging, put them on your field of battle, and start playing. You can also easily customize our products with different paint jobs and other details.

We use a special kind of hard foam that makes ZITERDES terrain "Battle Ready, Shapeable and Durable." The material is lightweight, durable, and easy to paint. You can cut it with a knife or fretsaw, and use a file or sandpaper for fine edges. You can form it in hot water and it is weatherproof.

### So what's the deal with the MGT?

One highlight in our product line is the Modular Gaming Table, or "MGT." We offer 10 different individual MGT modules. Each module is 2' x 2' and players can combine them in any fashion, allowing for thousands of possible battlefields. The ZITERDES MGT will test your warrior instincts and skills and is a challenge for all gamers, no matter what game they play.

ZITERDES will support AdeptiCon with 42 MGT modules, making 7 complete MGTs. Additionally we will send enough terrain and landscaping items to decorate the tables. AdeptiCon attendees will be able to play on the tables and experience for themselves the high quality of our terrain pieces.

### Anything else coming up?

One of our next items you MUST get will be a huge terrain piece (app. 18" x 22") which will remind you of the scenes in the Mines of Moria in the Lord of the Rings; available just before Easter.

### Where can I find out more about ZITERDES?

Go to our website at:

[http://www.ziterdes.de/content\\_eng/frameset.htm](http://www.ziterdes.de/content_eng/frameset.htm)

Ziterdes products, including the Modular Gaming Table and their terrain features, will be available in the AdeptiCon 2006 Vendor Hall! For more information on AdeptiCon 2006 and our events, visit our website at <http://www.adepticon.org>. You can register online via PayPal. Space is limited, so don't delay! Follow the registration link on <http://www.adepticon.org> for all of the important details.
